✉ rohitparit1934@gmail.com  /rparit1934  rparit-stacks  Portfolio  +91-9810167696

Education

Manipal University <i>Master of Computer Applications (MCA)</i>	Expected 2027 <i>Jaipur, Rajasthan</i>
Guru Gobind Singh Indraprastha University <i>Bachelor of Computer Applications (BCA)</i>	July 2025 <i>Delhi, India</i>

Experience

Debound India <i>Java, Spring Boot, JPA, REST APIs, JWT, PostgreSQL</i> <i>Freelance Backend Developer</i>	Nov 2025 – Present <i>India</i>
- Contributed to the Bank of Maharashtra backend migration project, helping migrate modules from PHP to Java using Spring Boot, JPA, and REST APIs. - Developed and maintained 2 backend modules with JWT authentication, RBAC, and PostgreSQL-based access control. - Built backend services and optimized API performance through efficient database design and query optimization. - Developed backend components for an AI-powered machinery solution and collaborated with the team following SDLC practices.	
Studio Sara <i>Spring Boot, REST APIs, MySQL</i> <i>Freelance Backend Developer</i>	Jan 2026 – Mar 2026 <i>Remote</i>
- Designed and developed the complete e-commerce backend using Spring Boot, REST APIs, and MySQL. - Implemented secure payment gateway integration and order processing workflows. - Built admin CMS modules for product, inventory, order, and user management. - Optimized API response times and database queries to support scalable business operations.	

Projects

E-Commerce Platform <i>Spring Boot, React, MySQL, JWT</i>  Repository	- Developed a scalable full-stack e-commerce platform using Spring Boot with secure JWT authentication and payment gateway integration. - Implemented GST invoice generation and an admin CMS for centralized product and order management.
Quick-Commerce Platform <i>Spring Boot, React, MySQL, REST APIs</i>  Repository	- Built a quick-commerce platform with cart management, real-time order tracking, and inventory handling. - Designed delivery workflow and scalable backend APIs for high-throughput order processing.

Technical Skills

Programming Languages: Java (Primary), C++, SQL
Backend Technologies & Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, Microservices, GraphQL, Apache Kafka, RabbitMQ, WebSockets
Databases: MySQL, PostgreSQL, MongoDB, Redis
DevOps & Cloud: Git, GitHub, Docker, Kubernetes, AWS (EC2, S3, RDS, Lambda), CI/CD, Jenkins, Linux, Nginx
Testing & Tools: JUnit, Mockito, Postman, Swagger/OpenAPI, Maven, Gradle, IntelliJ IDEA
Concepts: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, System Design, SDLC, Agile, Problem Solving

Sports Programming

Platform LeetCode : rparit-stacks	Problems Solved 160+
--	--------------------------------

Achievements

- Solved **160+ problems on LeetCode**, demonstrating strong understanding of Data Structures, Algorithms, OOPs, and Problem Solving.
- Participated in multiple **Hackathons**, showcasing teamwork, rapid prototyping, and innovative solution-building under time constraints.
- Built **production-level full-stack and backend applications** using Spring Boot, REST APIs, and SQL databases, improving backend performance and scalability.
